BASSANO, ALBERTA, THURSDAY, OCTOBER 30, 1919

No. 8

Don't Go To Japan For China

Our stock of china today is larger and more complete than ever. We have been very fortunate in securing delivery of several large orders of the famous English wares and we are in a position to offer you some remarkably good buys. These lines we are advertising are merely a part of the stock we are carrying but they will give you an idea of the money you can save by buying your chinaware at McKee's.

ENGLISH CHINA

- 97 piece set of Meakin's well known standard pattern china, very pretty design, and a neat shape. Price \$42.50
- 97 piece set Meakin's noted Overland design, a splendid serviceable design for everyday use. Price \$40.00
- 97 piece set of the favorite white and gold china. This is also a standard English pattern and very popular with people who know the value of a good serviceable set for everyday use. Price \$40.00
- Meakin's Maine Pattern. 97 pieces of a good outstanding design. Price \$40.00
- Yuan English ware. A very pretty blue and white pattern. A snap at 97 pieces for \$28.50
- Copenhagen pattern. Another splendid blue and white china which we are giving away at \$19.50

CUT GLASS, TOILET SETS, FANCY VASES,

NIPPON CHINA

- A very dainty hand painted Nippon China tea set. This is a splendid value at \$12.00
- 7 piece hand painted Nippon Berry sets at \$6.50 & \$7.25
- A large number of exquisite single pieces of Nippon ware.

LIMOGES CHINA

- This very high grade china is very hard to obtain. Today and the price makes it almost out of reach. We have two very beautiful sets which we are selling at the old price.
- 97 piece set Bridal Rose. One of the most beautiful patterns ever designed. \$120.00
- 97 piece Elite Limoges. A very choice small design, with heavy gold handles. A set of this china was used by the Prince of Wales at the Palliser. Price \$95.00

Beautiful selection of fancy earthenware flower pots, flower stands, etc.

WINTER APPLES

We have just unloaded our first car of Winter Apples, and we expect another in a few days. Included in this shipment we have noticed Wealthy's, Kings, Mothers, Holland Pippins and Maiden Blush varieties. These are all splendid winter apples and we would advise you to take your winter's supply now while the weather is comparatively mild.

THERE'S NO NEED TO SHIVER!

Our Men's Wear Store is now fully stocked with the choicest display of sweaters, sweater coats and pullovers. Included in this stock are a few of the famous Jaeger Sweaters, which at the prices we're offering are positive snags. We have sweaters to suit all weathers and all pockets, from the popular indoor pullover to the heavy all-wool sweater guaranteed to stop the most piercing cold winds. These are priced from \$6.00 to \$16.00. See our sweater window and then come in and inspect the goods closer.

- BLANKETS**
See our big value in Wool Blankets. We have a dandy lot at \$2.50 per pair

JAS. JOHNSTON The Quality Store.

Something Wrong Here

The Victory Loan Campaign this year has been featured so far by an almost entire lack of enthusiasm and a sort of don't-care-a-rap attitude which is far removed from the energetic, wholehearted spirit that made it possible last year for Bassano to obtain the honor of being first over the top.

This attitude is as hard to understand as it is regrettable, for the vital importance of the success of the loan is everywhere acknowledged, and we will not insult our readers' intelligence by endeavoring to prove to them that it is their solemn duty to support the loan to the utmost extent of their means.

It might be as well, however to point out a few facts which will undoubtedly happen if this loan does not meet with success.

The government will have to refuse credit to the borrowing countries of Europe who need the goods Canada has to sell, and consequently the trade and commerce of this country will suffer depression.

The reconstruction program will have to be abandoned and with it, for at least another generation, our hopes of better conditions of living.

But, in our opinion, most important of all, the re-establishment program, (which though perhaps not as extensive or complete as might be wished, is still a title repaid of the great debt we owe to the boys, by whose sacrifice has been gained our prosperity and safety) will have to be curtailed.

The abandonment of these programs will be the responsibility of every man or woman who, having the means, refuses to lend of their substance to their country in its need.

Think well therefore before you

Bassano Supplies Horses For France

Messrs. de Charnace & Chivaneux French horse buyers, recently paid a visit to B. H. Bunny's ranch and selected 19 head of heavy drafters for export, paying a very satisfactory price for same. The bunch consisted of 14 head of four and five year old geldings and five mares, and were loaded at Bassano on Wednesday for New York where they will be shipped to France.

Makes It Easy For The Farmers.

The Finance Minister has arranged with the Canadian Bankers' Association and the General Managers of the Banks, that in the case of farmers and others who do not receive returns until the end of the season, branch managers may make loans against the 1919 Victory Loan Issue for the period of one year without requiring periodical reductions to be made in the interim.

We are also informed that loans made for this purpose will not in any way affect the farmers credit at the banks.

Have Patience Boys

That Skating and Curling rink meeting is coming, and the date and place will be announced later. As this meeting is an organization and not a building bee, hammers and nails will not be required.

refuse to subscribe, and do not forget in passing, that you will never find a more lucrative and safe investment for your money. It not only earns interest of itself but it will also create a far greater interest by the continuance of the period of prosperity.

British Premier On Need of the Hour

LONDON.—In a speech at Sheffield, Premier Lloyd George urged the need of greater unity on the part of the nation. He pointed out that the national debt was nearly £2,000,000,000. He said wages had doubled, the hours of work were curtailed and the standard of living was higher than ever, but that that standard should not be preserved by the recurrence of tribal or the decisions of labor conference.

The Premier called upon the British people to see that the peace was a real peace.

"It is not the British habit," he said, "to nag, harry, insult and trample a bleeding foe. So long as Germany conforms to the conditions we have laid down, we must give her a clear chance to work out her own peaceable and honorable existence."

Some Teamsters Still on Strike New York.—Striking members of the International Brotherhood of Teamsters, Chauffeurs and Helpers, most of whom are employed by the American Railway Express company, voted to remain on strike after a meeting attended by 2,500 in Cooper union hall, New York, last night. The vote was 1,000 to 100 to accept an increase of \$5 and 66 a week, offered by the express companies, instead of the \$10 weekly increase demanded by the men.

The express drivers' vote was practically unanimous, only one negative vote being recorded.

Contradictory Reports Stockholm.—Reports regarding Pakov are contradictory, some declaring that the town was taken by Estonians, and others that its capture had been delayed owing to the destruction of the railroad tracks. The station, both to the north and south, according to advices received here, are known to be in the hands of the White forces.

Riga More Normal Helmingfors.—Conditions are becoming more normal in Riga following the German-Russian attempt to capture the city. It is stated in advices received here that the city is now in the hands of the Russians.

Most of the newspapers are again appearing. Supplies are short, however, and prices of commodities are rising.

Print Paper from Prince Rupert Prince Rupert, B.C.—Thirteen carloads of paper made at Ocean Falls and consigned to the New York Times, are on their way east from Prince Rupert. This paper was made from pulp furnished by spruce logs felled on the Queen Charlotte Islands during the airplane raid on the islands, concluded with the signing of the armistice.

Closing in on the Bolshevik Forces

LONDON.—In official quarters here it is declared that General Yudenich, commander of the northwestern Russian force advancing on Petrograd, is working in close understanding with Admiral Kolchak, head of the all-Russian government, and General Denikin in a combined effort against the Bolshevik armies in Siberia, southern Russia and on the northwestern front.

General Yudenich's troops are fully equipped by the allies, with whom the general is in close touch. He, as well as General Denikin and Admiral Kolchak, it is declared, has consistently rejected all overtures from Germany and maintained their connection with the allies.

In connection with the report from Germany that Great Britain had invited Germany to co-operate in the coercion of Soviet Russia, the correspondent of the Associated Press learns that a communication of this nature was made to Germany by the peace conference.

Word of the request to Germany to participate in a blockade of Soviet Russia came first from Berlin, and later was followed by the German neutral states intimating that they, too, had been requested to join in a blockade.

Most of such contemplated measures had, however, been made from Paris or London, causing adverse newspaper comment.

Paris that the United States did not join with the extreme powers in asking Germany to cooperate in such a blockade.

Canadians Anxious To Come Home

Great Britain Is No Place for the Soldier at Present

Ottawa.—The Department of Immigration and Colonization has received by cable a warning from England that there are thousands of Canadians on the other side anxious to come home, but unable to secure return passage for at least six months.

It is said that this situation is being accentuated by the arrival of visitors from Canada. When the cable was sent from London in which had been resorted to. The weekly allowance was: Butter, 1 ounce; sugar, six ounces; coal, 100 pounds; meat, 40 cents' worth.

Canadians who contemplate a visit to the mother country during the next months should take into consideration the impossibility of returning within a few weeks after arrival there.

Want Prohibition in France Paris.—The fight against alcohol will be a leading claim of the national platform in the forthcoming elections. Ministers are demanding the absolute suppression of alcohol, and the walls of Paris and the larger cities are already plastered with demands, and pamphlets and posters have been mailed by the hundred thousand to hotels and individuals in the provinces.

"If France does not suppress alcohol, alcohol will suppress France," the posters proclaim in huge characters, and add, "Three million individuals live upon the traffic of alcohol; thirty-five million suffer and die from it."

Pensions Laws Give Little Complaint Winnipeg.—Lieut. Colonel John Thompson, chairman of the Pensions Board, Ottawa, and Major Stanley Corstine, commissioner, arrived in Winnipeg for a routine inspection of the district pensions office here. The commissioners have inspected the office in the city, and have been very little complaint. The pensions law was administered in the West. In practically all instances they found that a proper explanation of the regulations eliminated the reasons brought forward for the complaints.

Want Stamped Cheques Winnipeg.—The Federal Government is being asked to arrange for the issue of stamps for the use of all chartered banks which will bear the two-cent stamp.

Land For Soldiers 2,700 Quarter-Sections In All for Sale By Public Auction This Fall

Ottawa.—Through the intervention of the Soldier Settlement Board school lands in Manitoba and Saskatchewan, aggregating 42,000 acres, have been withheld from sale by auction, in order to be made available for settlement by returned soldiers. Arrangements have been completed to advertise these lands, 2,700 quarter-sections in all, for sale by public auction this fall. The lands are situated in the Winnipeg, Brandon, Regina, and Saskatoon districts, and in Manitoba, and the Canora, Wadena, Prince Albert and Wakarusa districts in Saskatchewan.

Double Tragedy Feared Edmonton.—Grave concern is felt in Peace River over the report brought in from Bear Lake by a half-breed that he had found evidence of a tragedy out on the ice of Bear Lake. It is feared that two well-known young men of Peace River, Scotty Leitch and Duncan Stewart, are drowned.

Valuable Salmon Stock River Rupert, B.C.—The Skeena River salmon pack has been completed, and the season is now closed. The pack was valued at \$4,027,000. The sockeye pack was a good deal larger than usual, the total gross 180,000 cases, which at \$15 a case is valued at \$2,700,000.

Hungarian Peace Pact Delayed

No Government in That Country With Which Supreme Council Can Deal

Paris.—The supreme council and the peace conference will probably not deal officially until the Hungarian treaty is concluded, but only a few days before the treaty with the other governments will remain to complete the work.

An entirely new set of delegates will probably be instructed to negotiate the treaty with Turkey when the allied and associated powers learn whether the United States will accept a mandate for Turkey or a partition of the Turkish territory.

The Bulgarian delegation is now on its way back to Paris and there is every indication that the Bulgarian treaty will be disposed of shortly. Only the Hungarian treaty remains to be negotiated.

There is no government in Hungary with which the conference can deal, but the treaty draft is practically completed in Paris and should be no recognized government in Budapest before December 1, arriving in Paris probably in a few days. A few delegates remain in Paris to negotiate a treaty with Hungary, whenever a satisfactory government is established.

No Dealings With Bolsheviks

Supreme Council Proposes Shutting Off Russia From Intercourse

LONDON.—The text of the note of the supreme council inviting Germany to participate in the blockade of Russia as published by the Berlin Tagblatt, and reprinted by the Daily Herald, shows that Sweden, Norway, Denmark, Finland, Spain, Switzerland, Mexico, Chile, Argentina, Colombia and Venezuela have been invited to initiate measures to prevent their nationals from engaging in any trade whatever with Bolshevik Russia. The measures are as enumerated:

1. Refusal of permission to sail to every ship bound for a Russian Bolshevik port, and the closing of all ports to ships from Bolshevik ports.

2. Similar regulations to be adopted with regard to all goods destined for the Russian Bolshevik ports.

3. Passports will be refused to all persons, to or from Bolshevik Russia. Exceptions may be made in the case of the allied and associated powers.

Measures will be taken to hinder bankers from granting credit to commercial undertakings in Bolshevik Russia.

Every government will refuse its nationals any facilities of intercourse with Bolshevik Russia, whether by post or wireless telegraph.

The first two of the following instructions: "Inform the German government that the British and French navies-officers in the Baltic will continue to blockade Bolshevik ports and detain, from the moment they come in sight, any ships bound for Bolshevik ports."

The preamble to the note declares that the open enemy of the Bolsheviks is directed against the governments and that programs of international evolution circulated by them constitute a grave danger to the national security of all the powers.

Check for the Consumer Ottawa.—New regulations governing the labor packing industry of the Maritime Provinces are provided for in an amendment to the Meat and Canned Foods Act, of which notice has been given by the government. Provision is also made for the correct labelling of all cans of fish or shell fish imported into Canada, and for the correct labelling of weight of contents, place of origin, and the names of the packers, and also of the importer.

French Want Canadian Houses Ottawa.—The secretary of the Export Association of Canada states that the association is consulting with the ministry of health for a supply of houses for the Canadian plan, in connection with the new government housing scheme, and a definite decision may be expected within a few weeks.

C.M.A. Extending Organization Toronto.—In pursuance of an intensive policy of organization, and in the interest of permissibility of co-operation among members more or less closely located the Canadian Manufacturers' Association has divided the Dominion into five districts, each of which will have a separate chairman, vice-chairman and executive.

Winnipeg Teachers Given Advance Winnipeg.—Wages increases for Winnipeg teachers of approximately fifteen to twenty per cent. have been decided by the school board management committee, effective on January 1 next. Rules governing salaries during the probation period were also adopted.

Tragedy of the Sea is Revealed

Survivors Say Officers Were Killed in Accident; Rescuers Speak of Sealing Fight

Philadelphia.—A tragic tale of the sea was unfolded here by four survivors of the British schooner Dunt, picked up, while drifting helplessly, several hundred miles from home by the Zirkel. The survivors, all from Newfoundland, said the captain of the schooner, Ernest, first mate, were crushed to death by the whirling of the sea cargo.

The stories, however, do not agree with that told by Captain Sullivan, master of the Zirkel, which arrived here, and all four men were locked up at the Gloucester immigration station on charges of mutiny. They will be released, except as to some of the details, which the authorities said when he could plainly be a general fight raging upon the little craft, the Zirkel, and that one of his officers said he had heard what he believed to be two explosions in the hold.

The survivors, Douglas Nichol, Thomas Molton, Lorenzo Ash and Ernest Fitzpatrick, all told the same story, except as to some of the details, which the authorities said when he could plainly be a general fight raging upon the little craft, the Zirkel, and that one of his officers said he had heard what he believed to be two explosions in the hold.

The Dunt was bound for Newfoundland from Porto, Spain, with a cargo of salt. Officers of the Zirkel assert that the vessel sank shortly after the men were taken off.

Clemenceau Ministry Is Sustained

By Large Majority on Chronological Order of Elections

Paris.—The Clemenceau ministry was sustained in the Chamber of Deputies by a vote of 324 to 132. The premier thus victoriously emerged from the bitterest and best organized assault which the ministry has ever faced, the chamber adopting the cabinet's policy on the chronological order of the elections.

For the first time, Aristide Briand, the former premier, came out openly in leading the opposition forces, but M. Clemenceau's majority was the largest he had ever received when the question of confidence was presented.

Prohibition Enforcement Bill Signed Washington.—The prohibition enforcement bill was signed by President Marshall and Speaker Gillette for immediate transmission to President Wilson. The President has ten days from the time it reaches the White House to sign it. An announcement has been made at the White House that the bill would be referred to Attorney-General Palmer for an opinion as to its constitutionality before any executive action was taken.

Alaskan Gold Dust Seattle, Wash.—With \$100,000 in gold dust aboard, the power schooner Osmo arrived here from Kuskokwim River points, Alaska, bringing the district's season clean-up of placer diggings.

Check for the Consumer Ottawa.—New regulations governing the labor packing industry of the Maritime Provinces are provided for in an amendment to the Meat and Canned Foods Act, of which notice has been given by the government. Provision is also made for the correct labelling of all cans of fish or shell fish imported into Canada, and for the correct labelling of weight of contents, place of origin, and the names of the packers, and also of the importer.

C.M.A. Extending Organization Toronto.—In pursuance of an intensive policy of organization, and in the interest of permissibility of co-operation among members more or less closely located the Canadian Manufacturers' Association has divided the Dominion into five districts, each of which will have a separate chairman, vice-chairman and executive.

Winnipeg Teachers Given Advance Winnipeg.—Wages increases for Winnipeg teachers of approximately fifteen to twenty per cent. have been decided by the school board management committee, effective on January 1 next. Rules governing salaries during the probation period were also adopted.

Work Ready For League of Nations

Wants a Pool to Indemnify Allies

French Senate Adopts Resolution Asking for Further Disarmament

Paris.—The senate adopted the resolution, which has already been passed by the Chamber of Deputies, asking the government to suggest to the allies further measures for the disarmament of Germany, and another resolution suggesting that France be given a prior claim in the distribution of reparation payments made by the Germans.

The Chamber adopted a resolution which, after expressing confidence in the spirit of equity and justice of the allied and associated powers, asks the French government to negotiate with the allies for the establishment of a common pool between the allies to indemnify the participants in the great war.

Huns Are in a Quandary

Germans Are Not Keen on Blockade of Russia

Berlin.—Suggestions from the entente that Germany join in the blockade of Soviet Russia, have not yet been officially considered by the German government. A statement indicating the government's answer will neither be an unconditional refusal nor an indication of doubt. It is said that the Germans will suggest the installation of an international commission to deliberate on the proposition which was unquestionably found German unprior and places her in a quandary.

Hauling Wheat Across the Line Winnipeg.—It is reported here in grain circles that farmers in Manitoba and Saskatchewan to a distance of 40 and 50 miles north of the international boundary line, are this fall hauling large quantities of wheat to the United States market.

This international trade has assumed such proportions that a number of checkers located at southern points in the two provinces are being closed up as the amount of business they are receiving is beyond the capacity of the expense of keeping them open.

Prohibition Enforcement Bill Signed Washington.—The prohibition enforcement bill was signed by President Marshall and Speaker Gillette for immediate transmission to President Wilson. The President has ten days from the time it reaches the White House to sign it. An announcement has been made at the White House that the bill would be referred to Attorney-General Palmer for an opinion as to its constitutionality before any executive action was taken.

Alaskan Gold Dust Seattle, Wash.—With \$100,000 in gold dust aboard, the power schooner Osmo arrived here from Kuskokwim River points, Alaska, bringing the district's season clean-up of placer diggings.

Check for the Consumer Ottawa.—New regulations governing the labor packing industry of the Maritime Provinces are provided for in an amendment to the Meat and Canned Foods Act, of which notice has been given by the government. Winnipeg Teachers Given Advance Winnipeg.—Wages increases for Winnipeg teachers of approximately fifteen to twenty per cent. have been decided by the school board management committee, effective on January 1 next. Rules governing salaries during the probation period were also adopted.

Washington—While no official declaration can be made in advance of the action of the senate on the treaty of Versailles, it is learned unofficially that plans were laid for bringing the treaty before the senate almost immediately upon the publication in Paris of the ratification by France, Great Britain, Italy and Germany, which will put it into force.

Although the United States cannot participate in the initial stages of the League of Nations, it is understood that the decision has been reached to have President Wilson issue a call for the first meeting of the council of the league with the fifteen-day period provided in the treaty for the appointment by the council of three members of the commission which is to determine the boundary of the Suez Basin.

No Chance For Profiters

British Courts Take Prompt Action to Regulate Prices

LONDON.—Following are typical examples of the decisions of the prohibiting courts in connection with this war: At Manchester the committee held that 20 per cent. too much profit was charged to Prof. Toul, of Manchester University, for a lecture given to a purchaser of a medal bar bought for two shillings. Many complaints have been postponed for further enquiries.

One alleged fraud in the profiteering act is that the owner of a complaint is not a citizen of the United Kingdom. A church bazaar, which obviously involves considerable trouble in the recovery of overcharges in individual payments. A church bazaar, which obviously involves considerable trouble in the recovery of overcharges in individual payments. A church bazaar, which obviously involves considerable trouble in the recovery of overcharges in individual payments.

R.N.W.M.P. Headquarters to Go East Ottawa.—On a bill amending the Dominion and the Royal North-West Mounted Police, Sir James Loughlin in the senate stated that the headquarters of the organization would be moved to the east.

Large portion of the force would be continued west of the lakes. Smaller portions would be sent to serve on trains and brought east to serve in case of riot.

Sir James: They will be a mobile body.

The bill was given a second reading.

May Abandon U.S. Tour London.—It is quite possible that the visit of the Prince of Wales to the United States may be abandoned, owing to President Wilson's continued illness, says the Daily Mail. The King has been in communication with the President concerning this point, and the question will probably be decided soon. If the Prince does not visit the United States, it is understood that he will stay a somewhat longer period in Canada.

British Land Reinforcements Constantinople.—Two British transports have landed reinforcements on the Turkish Asiatic coast for the British contingent operating against the rebels.

Demand Surrender of German Vessels

Reds a Menace to U.S.

Senator Foindester Says Measures Necessary Against Revolution

Washington.—The United States government is in grave danger from the movement of international revolutionists, and it may fall unless vigorous measures of defence are taken now," Senator Foindester, Washington, declared in the senate.

"There are revolutionary interests in this country," Foindester said, "and which are at present in the hands of the government and the seizure of private property. There is no doubt of the existence of this condition."

Up to H.R.R. England, Ont.—"The town is yours, paint it any color you like. This is the only way to get the spirit of the Prince of Wales at Calcutta, and expressed the spirit of what extended the Prince by the Portuguese people.

FARMERS

Next time you are in town drop in and get our figures for overhauling your car this winter.

We have a staff of expert mechanics, and one of the finest garages in the province.

Our storage charges are very low.

INVESTIGATE NOW

Roy Smith - Bassano

Buy an Irrigated Farm

From the Canadian Pacific Railway.

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but EVERY YEAR.

Irrigation makes possible the successful culture of alfalfa, the king of alfalfa, which insures good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement, with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having abundantly demonstrated its success wherever intelligently applied.

This is the most liberal offer of irrigated farm land on record.

For full particulars, apply to

BASSANO

Phone 7

C. F. DOOLEY

The Bassano Mail.

Publishers: The Mail Publishing Co., Ltd.
Managing Editor: E. G. Allen

For the first time in the history of the town Bassano seems to be falling down in a clearly defined duty.

Throughout the dark days of the war the people of Bassano gave nobly of themselves and of their substance, and had not to take second place to any in their patriotic endeavor.

The Red Cross, the Patriotic fund, and both previous Victory Loan campaigns found Bassano always to the fore.

Last year Bassano led the whole province in the matter of over-subscribing to the Victory Loan and not only gained the first Honor Flag but also captured the greater distinction of eleven crowns to the flag.

And yet in the Loan which is now being canvassed for Bassano is lamentably falling down, and we are somewhere about \$20,000.00 short of the amount subscribed at this time last year.

Nevertheless we are confident that this condition is merely temporary and that in a very short time we shall find our town in the position it has always been in: near the top.

Our townspeople have either not realized that the campaign is on, or else are merely waiting to see just how much they can possibly manage to subscribe.

But we would urge those who have not yet decided to carefully study what the consequences of a failure would be, and to ask themselves whether they are prepared to see our town an object for the pitying scorn of the whole province.

The result of the Ontario elections may have the effect of quickening our provincial legislature's interest in matters pertaining to farmers such as better roads, rural telephones, etc., or it may, on the other hand, throw George Hoadley with his smug, complacent, incompetency, into the arms of his equally smug but rather more competent friend Duncan Marshall.

So long they agree not to elect John Glanbeck premier, the farmers' party should gain a large number of adherents in the south country; for the farmers, if they are to be a success in politics must be rather evolutionary than revolutionary, latterly is the group of pin-head politicians that John favors.

Rest With Nature

The closer you follow the rules of Nature the more you will accomplish, and the longer you will live, even Nature takes her rest during the Winter months. Why not you? Spend this Winter on the Pacific Coast, where you can enjoy summer pastimes, ride, motor, golf, in the big outdoors.

The Canadian Pacific Railway operates three through trains daily to Vancouver including the fast all-day car train "Trans-Canada Limited." See the magnificent mountains in their Winter garb; the open seas and green fields—all this and more await you at the Pacific Coast.

Call or write for full particulars to any Agent of the Canadian Pacific Railway.

Mail Want Ads pay. Try 'em!

John Glanbeck Again.

Our very wise (?) old friend John Glanbeck has had another bad brain-storm, the outcome of which appears in a secret issue of the Gleichen Call, as follows:

"It looks as though Bassano made a great mistake when the Majorville farmers were forced into the Bassano hospital scheme very much against their wishes. But as the old saying goes 'It's all in the mind,' etc. Bassano's loss is Cluny's gain. Yes, all the Majorville farmers, who formerly hauled their grain to Bassano, now haul it to Cluny and it will mean a whole lot to Cluny, as the Majorville district is 'some real spot' when it comes to grain growing."

John must have had some more of that "inside dope" that he claimed to have received from the Bachelors last year, and of course it is as usual away off the track. For John's information we would state that up to the present the municipal hospital has been the means of comfort and great benefit to many farmers, their wives and families, 80% of whom have come from the Majorville district.

If Bassano has lost any business by its action in supporting such a worthy scheme as the municipal hospital, which in the main was formed to give greater service to the farming communities, it will, no doubt, be able to struggle along somehow, but we very much question whether any man worthy of the name would withdraw his trade for such a mean and petty motive as Glanbeck ascribes to the Majorville farmers.

Glanbeck would doubtless like to make the Majorville farmers appear as narrow and mean as he himself would appear to be but he is lacking up the wrong tree this time, for we know the Majorville people to be immeasurably above the Bachelors' ideas of Glanbeck and men of his kind.

Canada's Future Depends on Loan Steady Employment and Prosperity Hang on Victory Loan

Canada's future prosperity depends on a great extent upon the success of the Victory Loan. No country can exist upon trade within its own boundaries. Canada cannot on the trade with Great Britain and other allied countries to keep the flood of good times in the country.

The surplus products of the farm and the factory find their way across the sea. The revenue of the farmer and the manufacturer is dependent on this trade relationship being sustained. The employment of many hands depends on his orders that come to the firm. The pay envelope only comes with steady employment.

Great Britain and overseas countries are still desirous of continuing trade relations, but overwhelmed with war expenses, they must be given credit for maintaining. Therefore, Canada must finance the proposition. But in order to use the money on hand to do this great thing, Canada must borrow from her people.

FOR SALE

Wheat Straw. See Alex Felton, Composite or Write Box 228, Bassano.

FOR SALE

Good Grade Holstein Milk Cows. SMITH'S MILKWAY FARM, Bassano, Alta.

Sheriff's Sale

Under and by virtue of an Order of His Honour Judge Jenkinson, I will offer for sale on SATURDAY NOVEMBER 26, at 2 o'clock P.M.

the following lands, viz.: Lots Twenty-five (25) and Twenty-six (26) in Block Twenty-four (24) Plan 218, in the Township of Bassano, County of Wetmore, Alberta, and the buildings thereon the said lands being situated on seventh avenue, and formerly occupied by Mr. W. J. Yeo.

The sale will take place on the said premises subject to a mortgage bid which has been fixed by the said Judge, and to certain conditions which may be obtained from me at my office and which will be announced at the time of sale.

The terms of payment will be 10% of price at the time of sale, one-half in cash and the remainder in three months with interest at 4% per annum or the purchaser may pay all the balance in sixty days without interest.

A. A. MACKENZIE, Deputy Sheriff.

How to take the H.C.L. out of clothes buying for fall

Clothes are higher priced; all of them—good or bad. The poor ones cost about the same as the good ones—not much difference any more.

Here's some good advice: take it from us; don't try to "beat the game," and pay the lowest price; you'll get poor quality; the clothes won't last, and your "High Cost of Clothing" will go up several notches.

Here's the right way; get good quality; pay for it; the wear and service you get saves for you and reduces the H.C.L.

Society Brand Clothes do it; they're made to give wear, satisfaction or your money back.

JACK TORGAN'S STORE

Preparing For Winter

You will wake up some brisk morning before long shivering for the first time in an hour with advance information that old man Winter will soon be here.

But before Winter is actually upon us, we should make sure that our eyes are "fit" for the work there is to do. Winter is study time for the children and reading time for grown ups. A slight defect of the eyes now will, under the strain of artificial light, become a serious defect before Springtime arrives.

It costs only a few moments' time to make sure by scientific examination what is needed to secure lasting comfort and better vision.

Bulyea Council

Minutes of Council Meeting held at Council Chambers Saturday, October 11th, 2 o'clock p.m., 1919.

Attendance: Reuben Stewart, Councilman, Gilman, Coulter and Hogg.

Moved by Coun. Coulter that relation of last meeting of the Council be adopted as read. Carried unanimously.

Moved by the Mayor, that we deeply regret the death of our former councillor, Louis Julius Kemp, and that the Secretary write Mrs. Kemp expressing our deepest sympathy for her and the district's great loss. Carried unanimously.

Moved by C. J. Gibson, that the Secretary draft and send telegrams to the Board of Railway Commissioners, Hon. A. L. Sifton, H. H. Pelly, M.P., asking that the branch of the Canadian National Railway, Hanna to Medicine Hat, have twice weekly service from Hanna to River, and that the spur tracks be completed into Hanna at Sherburne so that coal can be supplied to settlers of this district at minimum cost. Carried unanimously.

Moved by Coun. Hogg, that Messrs. Burns and Weaver, Solicitors of Kamloops be notified that the Municipality refuses to acknowledge claim for damage to mine of Henry Smith, which in Municipal period, Mr. McIntyre accepting the claim in question and making no claim for damage. Carried unanimously.

Moved by Hogg, third reading of By-law No. 32, carried unanimously. Passed as read.

Moved by Coun. Gibson, that Messrs. J. W. Forster & Son be requested to remove gates from road allowances, leading to bridges on Henry Creek, from east end road, and back. Carried.

Moved by Coun. Hogg that C. J. Gibson be appointed Deputy Mayor for balance of year. Carried unanimously.

Moved by the Mayor that we certify all possible expenditures and pay Post, Supp. Tax, and Educational taxes due them, that we open trust accounts for Supp. Revenue, Educational and Wild Lands in bank, as per Sec. 225 of M.D. Act. Carried.

Moved by the Mayor that the following accounts be paid: Labor Street No. 23 \$37.10; No. 22 \$30.00; No. 24 \$73.60; No. 25 \$218.70; W. Bradshaw \$30.00; Albert Holmes \$20.00; L. E. Holmer \$20.60. Carried unanimously.

Moved by the Mayor, that we call by-election for Division No. 2, to fill vacancy caused by death of L. J. Kemp, nomination meeting to be held on October 25th and election on Nov. 1st, 1919. Carried unanimously.

Moved by Coun. Gibson that Geo. Loveland be appointed Returning Officer for by-election in Ward 2, and that he receive \$12.00 for services. Carried.

Moved by Coun. Gibson that we pay balance of Ward 2 bridge, grading, salary. Carried unanimously.

Moved by the Mayor that the next regular meeting of the Council be held at the Municipal Office on November 15th at 2 o'clock a.m., 1919. Carried unanimously.

Moved by Coun. Gibson that we adjourn. Carried.

L. E. H. HARRIS,
the Mayor.

Borden Asks For Support of Loan

In Letter to Drayton Says There is Ample Money in Canada For After-War Problems

My dear Sir: Dear Drayton:

I hope the people of Canada will fully realize the extreme importance of making the present Victory Loan a complete success.

The necessities of the country involve a very heavy expenditure in mobilization, in the payment of the liberal war gratuity authorized last December, in carrying out the arrangements for the civil re-establishment of returned soldiers and in providing for settlement upon the land. As Sir Thomas White pointed out in his Budget speech, the present fiscal year, for this reason, is a year so far as expenditure is concerned. The exportation of our surplus food products and other staple commodities must be maintained and, pending the return of normal financial conditions, the Government is called upon to establish necessary reserves for this purpose.

The money markets of the world to which we have had resort in the past are closed, and it is entirely necessary to rely upon our own resources. They are ample for the purpose of providing the country with the amounts necessary to carry on its affairs. The security offered by a Canadian loan is second to none in the world, and every citizen who contributes his quota aids in stabilizing and maintaining the credit of his country.

I send you my best wishes that the loan may be highly successful.

Faithfully yours,
(Signed) H. L. BORDEN.

All for Canada Canada for all

Canadians!

*This is a call to National Service—
The Victory Loan 1919
which opens to-day.*

YOU are citizens of no mean country.

Canada is a fair, free land.

Canada is your country.

Canada—now—has need to borrow from you—Lend!

Lend without restraint of politics or fine distinctions of creed or party.

The leaders of the political parties endorse the Loan.

It is CANADA that asks:

And why—

To clean up the last of the War's commitments and expenses;

To establish beyond all question the capacity and credit of your country;

To care for the wounded and maimed soldier;

To finance the bonus of the returned soldier already paid;

To enable the fruits of Victory to be garnered;

To ensure the prosperity of you, her citizens.

The guns of war are silent—but they are not yet cool.

The Victory Loan 1919 is a War Loan.

Canada's book of war is gloriously written—make this, the closing chapter, a worthy one. The responsibility is yours. LEND!

of the Dominion of Canada.

VICTORY LOAN

ROYAL YEAST CAKES

Royal Yeast has been the standard yeast in Canada for over 50 years, and it is a well known fact that bread made with Royal Yeast possesses a greater amount of nourishment than that made with any other.

The 1919 Victory Loan

The people of Canada are once again asked to demonstrate their thorough-going Canadianism by subscribing to the limit of their financial ability to the Victory Loan, 1919. Throughout the war the people of Canada never once failed to meet all demands made upon them by their country, and Western Canada in particular established a record for self-sacrificing patriotic effort unsurpassed in any province or country. Looking back over the history of the past five eventful years, the people of the West have nothing with which to reproach themselves; on the contrary, they have every reason for justifiable pride in their efforts and achievements.

The Great War is over as far as the fighting is concerned. It has ended in a triumphant victory for our cause, a victory made possible by the efforts of the five years no longer past. But while the fighting is ended, victory achieved, and our soldiers home again, one very important part of Canada's war effort is yet uncompleted. The Victory Loan, 1919, is necessary to finish the war.

What is a tremendous expense business, and modern warfare calls for an expenditure of money undreamed of in the centuries of the past. Canada pledged its honor to contribute all its powers, resources, and wealth to the winning of the war. We said we would give to the limit of our last man and our last dollar in such a just and noble cause. Our

other thousands are maimed and suffering from wounds, all require to be again established in the civilian life. The soldiers have done their part. They have brought imperishable honor and glory to Canada. As soldiers their work is ended.

But Canadians who remained at home, and who, therefore, had the easier part, have still to finish their part of the work. The bills contracted to win the war must be paid. Furthermore, the expense of war did not end with the actual fighting. It cost millions to bring our soldiers home, and many more millions for pensions and re-establishment of the veterans. Millions for reconstruction work. Other millions are necessary to finance the sale of the products of Canada during this reconstruction period throughout the world.

This money must be provided, and it must be provided by the Canadian people themselves. The Victory Loan is the medium through which this necessary provision is to be made.

When, during the war, our boys went "over the top," they had an objective before them, and it was said to the credit of Canadian soldiers that they never once failed to reach their objective. But while the "storm" troops went forward, others had to do the less spectacular, but equally important work of "mopping up." All enemy digouts, machine-gun nests,

miners, had to be accounted for, and a general "clean-up" carried out. If this was not done, and done thoroughly, there was grave danger to the final success of the operation.

Canada as a nation has reached its objective in the winning of the war. Now the work of "mopping up" must be attended to, all bills must be paid, and adequate provision made for our soldiers and the necessary funds provided to keep all the wheels of commerce and industry turning in this Dominion. With Bolshevism and unrest rampant throughout the world, it would be nothing short of a national calamity if business became stagnant in Canada and unemployment widespread. The result would be disastrous, and no man can foretell what the end might be. A large over-subscription to the 1919 Victory Loan will avert such a disaster.

This is not a loan to the Minister of Finance. It is not a loan to the Union Government. It is a loan by the people of Canada to Canada. Itself. In other words, it is a loan by individual Canadians to themselves in a collective capacity. It is a loan for national purposes, and every cent of the loan will be spent in Canada and thus redistributed again to the people of Canada. Canadians will receive the interest paid on the loan, and will ultimately receive back the whole of the principal sum.

If Canadians fail to subscribe the amount of the loan, the money will go elsewhere, and if Canadians refuse to lend their own country the money it needs, it stands to reason that other people will only loan to it at absolutely ruinous rates of interest. Furthermore, the payment of the loan will constitute an annual drain upon Canada, impoverishing it, but adding to the wealth of other countries.

Canada must pay its war bills and finance its own reconstruction policies. It is far better both for the individual taxpayer and the nation that Canadians themselves should provide the principal sum to cover such expenditures, and to pay to themselves the interest charges on that national indebtedness.

Every Canadian should, therefore, strive to contribute to the limit of his or her resources to the purchase of the largest possible amount of Victory Bonds. Quite apart from financing Canada, and maintaining our national honor and credit before the world, it will prove a first-class investment. The security is unquestioned, the rate of interest is that of the Dominion. The interest rate is good—far better than that paid by any financial institution on savings accounts.

Help Canada to "mop up" by buying Victory Bonds, 1919, to the limit of your ability.

Saskatchewan's Butter Production Shows even cars of butter, valued at \$125,000, were exported from Saskatchewan last year. This is an increase of eighteen cars over the number sent out of the province in 1917, and an increase of \$100,000 in value. Part of the increase in value is due to higher prices that were ruling in 1918 over those of the previous year.

A drugist can obtain an imitation of MINARD'S LINIMENT from a Toronto house at a very low price, and have it labelled as his own product. This greasy imitation is the poorest one we have yet seen of the many that every Tom, Dick and Harry has tried to introduce into the market.

Ask for MINARD'S and you will get it.

Deceit in women is due to their failure to practice the art of listening.

Minard's Liniment Cures Dismeter. Of course the serpent knew things were coming his way as soon as he discovered a woman in the garden.

BABY HAD DIARRHOEA

WAS GIVEN UP

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY CURED HER

Mothers should look well after their children during the hot summer months, as this is the time of year when the young ones are most liable to all kinds of bowel complaints. Their children have any looseness of the bowels do not experiment with new and untried remedies, but get up having stood the test of a few days. Fowler's Extract of Wild Strawberry has been the means for the cure of many a case of infantile diarrhoea. Do not accept a substitute and endanger your child's life.

Mrs. Willis Campbell, Sundridge, Ont., writes: "About four years ago my little girl, then a baby two months old, took diarrhoea. I took her to the doctor, but to no avail. After her mother read of Dr. Fowler's Extract of Wild Strawberry and immediately got a bottle. I cannot overpraise it enough. I hope some mother will see this letter and lead them to a friend to be tried. Price 25 cents. Put up by Dr. J. Milburn Co., Limited, Toronto, Ont."

There are more thorns than roses on the path that leads to a woman's freedom.

It testifies for itself—Dr. Thomas' Elixer. It is a testimonial of its powers other than that. "Whoever uses it for coughs, colds, or for contusions, for sprains or burns, for pains in the limbs or body, will find that the medicine proves itself and needs no guarantee. This shows why it is in general use."

An old bachelor says it is better to die for a woman than to live with one of them.

How The Scrap Started Jones stepped on Smith's favorite

corn, and of course there was trouble. What Smith needed was Putnam's Corn Extract—that's the only thing for corns and warts that cures in half an hour. It is the only standard. Try it, 25c at all dealers.

Underwork

Cause of Imaginary Maladies Which Often End in Insanity

"Overwork is bad," said a doctor, "but it's nothing like so bad as underwork."

Overwork may stay its thousands, though I doubt it, but underwork stays its tens of thousands beyond question. Underwork is the cause of neurasthenia, insomnia, fatigue waves, and all that host of imaginary and yet innumerable maladies which so often end in insanity or suicide.

"In the South Sea Islands the climate is perfect, nature is beautiful, and everybody can live without work. What is the result? The result is that the South Sea Islanders are feeble-minded, practically idiots."

"Australia is another place with a perfect climate and a perfect soil. Everything grows all the year round in Australia except weeds. The Australians devote themselves mainly to music and love-making. Result? A race of seraphim, undersized illiterate."

Plowing Moderate Depth

Provided the plowing of the sun, the rainfall in the previous year has been deep, as it should be, there is little advantage in deep fall plowing for wheat. About 10 or 12 inches will bury the stubble satisfactorily and will not be so much in danger of leaving an open dry bottom to the seed bed as where a large amount of stubble is turned in too deeply. This is even more true of early spring plowing, where a moderate depth is decidedly preferable.

A dog makes almost as much noise when he barks, a man does when he talks his whole.

W. N. U. 1287

Sunflowers Ideal Forage Crop

Careful Experiments to Determine Relative Values of Various Forages

It would seem to be settled beyond doubt by the experiments of Professor G. H. Burton, superintendent of the agricultural and animal industry branch of the Canadian Veterinary Service, conducted at his experimental farm at Strathmore, Alberta, that sunflowers are the ideal forage crop of this province. It returns in tons per acre any other critical of crop values.

Two and a half acres close to the buildings on the farm were sown in three feet apart this spring, irrigated, and properly cultivated between the rows, and the crop, which has just been cut and placed in silos, was accurately weighed, and the result showed a yield of 366 tons to the acre, even weight placed in silos. As there is moisture at the rate of 241 per cent in sunflowers, this would give a yield of dry matter per acre of a little over six tons.

Corn raised under similar conditions at Strathmore returned 14 tons to the acre, and the moisture content being 78.72 per cent, the return in dry matter was 2.45 tons per acre. Peas and oats returned seven tons to the acre, and the moisture content in the peas was 78.72 per cent, the weight of dry matter being 2.35 tons per acre.

Results as given by experiments conducted at the state experimental farm in Montana last year showed a high food value in sunflowers giving that ensilage an equal value with corn ensilage as feed for dairy cattle, and as being far superior to either corn or oats for sheep, but during this coming winter Professor Burton will conduct careful experiments at Strathmore to determine the relative values of these various forages when ensiled.

The results will be watched with the greatest interest by farmers, ranchmen, and the public generally, to whom the question of forage for winter feed under irrigation conditions is a matter of supreme interest, involving, as it does, the capability of the country to sustain a much larger population of livestock than at present.

The Brazil nut tree does not begin to bear fruit until it attains the age of 50 years or thereabouts, and continues to produce crops intermittently for years, known to be hundreds of years old have produced crops.

Minard's Liniment Cures Garget in Cows.

A Human Picture Gallery Perhaps the most extraordinary to

ing idea ever carried out was that of a French coachman who, at the time of the celebrated Dreyfus trial, had his body covered with no fewer than 120 illustrations of the case, including portraits of the leading persons connected with it. The work occupied nearly two years.

"My Back Is So Bad"

PAINS in the small of the back, lumbago, rheumatism, pains in the limbs all tell of defective kidneys.

Persons are being left in the blood which cause pains and aches.

The kidneys, liver and bowels must be aroused to action by such treatment as Dr. Chase's Kidney-Liver Pills.

There is no time for delay when the kidneys go wrong, for such developments as hardening of the arteries and blood diseases are the natural result.

One pill a day, 25 cents a box, all druggists, or by mail, Dr. Chase, Ltd., Toronto.

Chase's Kidney-Liver Pills

Some men would rather own you a bill for more than put you to the trouble of collecting it.

A check, gilt with painted checks is—checky.

A Nervous Wreck

BY DR. H. L. GRANTER

How many business men feel fagged out, nervous, with a "soggy brain" worn out completely before the day and its tremendous tasks are half over? Try the right way! Clean the body first. That will help your nerves, your head and your circulation. Your doctor will tell you that anything from a headache or a common cold to gripe or a serious illness may result from allowing food to ferment in the intestines. Don't give the body a chance to absorb the poisons. Remove the toxins from the system and give the tissues of the body aid to resist disease by taking an occasional laxative such as castor oil, or a tiny pill made up of May-apple, aloin, jalap, and sold by most druggists as Dr. Fierro's Pleasant Pellets.

The kidneys and bladder suffer from the wear and tear, and we get chronic inflammations sometimes indicated by backache, painful voiding of water, heavy feelings. Perhaps the uric acid is stored up in the system in excessive amount, and consequently when the urate salts are deposited in muscles and joints one suffers from lumbago (pain in back), rheumatic pains, gout, etc.

Nothing will act so nicely as "Anurio" (anti-uric acid) a recent discovery of Dr. Fierro, which has been in all drug stores. "Anurio" washes away the poisons, cleanses the bladder and kidneys—rendering them antiseptic—consequently one is soon cured of lumbago, rheumatism, gout, and the body is put into a clean, healthy state.

Increased Bank Clearings The continued and increasing prosperity of Saskatchewan is reflected in the bank clearings at Saskatoon during the past month, when an increase of more than two and a half million dollars over the clearing house figures for September of last year, or practically forty per cent, was announced. This financial increase is general throughout the province and is indicative of the progress and success of its population.

Work of Big Section The total casualties in Paris resulting from air raids by shells thrown by German long-distance bombers, killed 21 persons, killed and 224 wounded.

THE FALL WEATHER HARD ON LITTLE ONES Canadian fall weather is extremely hard on little ones. One day is warm and bright and the next is cold and rainy. These sudden changes bring on colds, coughs, and croup. A little one's little stomach is kept right the result may be serious. There is nothing to do but to keep the little ones well. They sweeten the stomach and make baby thrive. The tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

The Goodness of Apples Because we like apples we use them, but apart from that we use them because they contain healthful acids, needed minerals including iron, lime and sulphur, many calories of energy, and some real nutrition.

Trunk an apple is 85 per cent water, but 15 per cent, and the apple has 12 per cent of sugar and starches.

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomachs can take them without any harm as speedy cases of pain, because they promptly kill the worms that cause the pain, and thus the suffering of the child is relieved. With so effective a remedy, it is no wonder that a mother of a young child should suffer an hour from worms.

Bank's Gold Supply Some Statistics as to Location of Supplies in Europe

By the latest reports received the National Bank of Germany holds \$300,000,000 less gold than it held a year ago; the Bank of Italy, \$300,000,000 less; the Bank of the Netherlands, \$27,000,000 less, and the Bank of Austria's total of \$500,000,000 is practically unchanged. On the other hand, the Bank of England now holds \$102,000,000 more gold than at this date in 1918; the Bank of Spain, \$41,000,000 more; the Bank of Sweden, \$17,000,000 more; the Bank of Norway, \$19,500,000 more; the Bank of Denmark, \$15,000,000 more; and the Bank of Japan \$25,000,000 more.

Some women who see things just as they are drive men to seeing double.

Some men pray for their friends and others pray upon them.

ROBB'S KIDNEY PILLS

MINARD'S LINIMENT CURES DISMETER

25 THE PHARMACY

A Well-Balanced Cereal

That is what Grape-Nuts Cereal is called, because it supplies the vital mineral elements so often lacking in other foods.

Grape-Nuts

provides all the goodness of wheat and barley. It's easily digested and has a wonderfully likable flavor.

"There's a Reason for Grape-Nuts At all Grocers."

MAGIC BAKING POWDER

Contains no alum

We unhesitatingly recommend Magic Baking Powder as being the best and purest baking powder possible to produce. It possesses elements of food that have to do the building up of brain and nerve matter and is absolutely free from alum or other injurious substitutes.

Proportional Representation

—No. 4

Opponents of the adoption of the Proportional Representation system in connection with parliamentary, legislative and municipal elections, to which attention has been directed in this series of articles, urge:

1. It is too complicated for the voters to understand.

The following was the percentage of valid ballots in the P.R. system in the last municipal election. Votes cast: 2,271, spoiled ballots: 43. Of this latter number, 34 were attributed to the new system, whilst 19 were declared invalid for other reasons. The percentage of spoiled papers due to the P.R. system was therefore just over 1 per cent.

Invalidated election. Votes cast: 12,107, invalid ballots: 278, percentage of invalid votes: 2.30.

2. The method of counting the votes is too elaborate and the process takes too long.

The following comments from places where P.R. has been tried may be taken as indicative of feeling on the question:

(a) Glasgow: The returning officer in one day counted no fewer than 13,000 votes, spread over seven electoral divisions of the city.

(b) Calgary: It took 2½ times as long to count ballots as under the old system.

(c) Kalamazoo: It took 6½ hours to count 4,401 ballots.

(d) of the election in Silesia, "The Champion" of that city says: "The system has justified its adoption. We saw it work; we saw its simplicity. We saw its unerring honesty in the voter's work."

It is as easy as the old way; it is a big improvement, and it is absolutely fair.

However, even two or three days were consumed in counting the ballots, there are still over 36 days left in the year for the Government to function, and the new Parliament, Legislature or Council, never takes action immediately.

3. It divides the electorate into groups and fosters group feeling.

Is not group feeling more apt to be inflamed by lack of adequate representation? In cities where the ward system prevails, this same group or sectional feeling is cultivated, whereas under P.R. the ward system can be done away with while at the same time making adequate provision that minorities can secure their proportionate representation in the Council.

4. P.R., by giving complete representation to the people, will weaken government and make it unstable.

This criticism is not borne out by experience where P.R. has been tried. The strength and stability of a democratic executive depend upon two factors: its personnel and its ability to interpret the will of the people.

P.R. tends to strengthen the personnel. M. Georges Lorané, the well-known Belgian M.P., states that under P.R. not only were all parties represented in Parliament, but they were represented by their ablest men and leaders, whilst under the former majority system prominent men pined for their places in the House.

Parliamentary life has consequently gained in authority. "Perhaps the principal benefit of P.R.," he adds, "has been that political life, which has been intensified everywhere, has also been purified, the weapons employed being generally more courteous and more dignified."

Further, a democratic government will be stable if it interprets the will of the people correctly, and P.R. by making our public bodies completely representative of the people, places in the hands of governments a more effective instrument for ascertaining what that will is. This explains why P.R. has foundered government in Belgium.

There are many other objections advanced against Proportional Representation, but these are the chief ones, and even these are directed against the manifest fairness of the P.R. method to all people in the election of their representatives.

As pointed out in the first of these articles, the principle of Proportional Representation has now been endorsed in Canada by the National Liberal Association, the Great War Veterans' Association, the Canadian Council of Agriculture, the Labor Party, Social Credit, and the United Farmers of Canada.

It is an amount of its intention of having an exhaustive inquiry made with a view to its adoption in Federal Parliamentary elections.

People everywhere should, therefore, embrace every opportunity that presents itself to study the question and become as fully informed as possible in regard to it, as it is practically a certainty that it will be adopted in Canada in the not distant future.

It is to encourage bold and direct study that this series of articles has been written.

Worms, however, generated, are found in the digestive tract, where they set up disturbances detrimental to the health of the child. There can be no comfort for the little ones until the harmful intruders have been expelled. No better preparation for this purpose can be had than Miller's Worm Powders. They will immediately destroy the worms and correct the conditions that were favorable to their existence.

A Politic Report

Traffic Cop: "Come on, What's the matter with you?"

Track Driver: "I'm well, thanks, but my engine's dead."

Minard's Limit for sale everywhere.

Wool Brings Satisfactory Price

W. J. Stark, secretary of the Alberta Provincial Sheep Breeders' Association, received a check for \$65,765.20, being a remittance from the Canadian Cooperative Wool Growers Ltd., of Toronto, on account of the wool shipped them for sale by the local association, and which was contributed by 324 sheep owners in northern Alberta and six from British Columbia. The wool has not all been sold as yet, and this remittance is on the basis of \$6 below the market price on each grade. When the balance of the wool is sold the contributors will be sent the amounts necessary to balance their accounts. The wool which has been sold has brought a very satisfactory price; some of the fine medium combing has sold at 60½ cents per lb. in the fine medium clothing brought 65 cents.

Missed a Mixup

An amusing incident in which the chauffeurs of M. Clemenceau and M. Lorrain, the Governor-General of Alsace-Lorraine, played the principal parts, occurred recently in Paris. The chauffeurs were driving their distinguished employers through one of the main thoroughfares of Paris the other day, when in some way they nearly collided. Both drivers were convinced the other was to blame and with much gesticulation began to abuse each other volubly. An unpleasant scene was developing when the chauffeurs recognized that they were driving were saluting each other from the carriage windows with every mark of amity and profound respect. The drivers' quarrel terminated abruptly, and with a superb air of dignified indifference they continued their journey.

When a man is sick he wonders if there is another man on earth capable of continuing his business in case he shuffles off.

MEASURE YOUR NECK Before and After Taking GOITRE

Send for free booklet, which explains what this medicine has already done for thousands of people. It is the most successful treatment for goitre in your own hands.

THE WOLFE CHEMICAL CO. 41 East Street, Toronto, Ont. WRITE FOR BOOKLET.

Dam is Completed

Canada Land Company Will Market

Water is now running over the south dam of the Canada Land and Irrigation Company's reservoir at Lake McGregor, nine miles south-west of Edmonton, Alberta. D. W. Hays, general manager of the company, states that prospects are good for the utilization of water for irrigation of land in the district near spring.

Had a Very Bad Attack OF Bowel Complaint IT WAS CURED BY DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

Any one suffering from bowel complaints such as diarrhoea, dysentery, colic, cramps and pains in the stomach, summer complaint, etc., will find that Dr. Fowler's Extract of Wild Strawberry will give relief.

This old tried and proven medicine has been on the market for the past 74 years. You don't experiment when you buy it. Surely the test of time counts.

Mrs. Daniel Hartwick, Mountain Grove, Ont., writes: "I used Dr. Fowler's Extract of Wild Strawberry and was cured of a very bad attack of bowel complaint. Nothing prescribed by the doctor seemed to do her any good. She got worse, until we thought we would lose her."

It is to encourage bold and direct study that this series of articles has been written.

Price 35 cents a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Prince Becomes Butter Dealer

To show he is a real patriot, Prince Louis of Bourbon, pretender to the French throne, has just entered the butter trade. He says he will fight for his country, and if he loses, he will cost of butter, he will feel he has done his bit for the people.

Comfort for the Dyspeptic

There is no ailment so harassing and threatening as dyspepsia, which arises from defective action of the stomach and liver, and the victim of it is to be pitied. There are, however, a few years of effective use. There are pills that are widely advertised as the greatest ever compounded, and one of them can rank in value with medicines.

Visitor (to sweet child whose mother has left the room for a moment): "Come here to me, my dear."

Sweet Child: "No, I mustn't do that. Mamma told me I must stay sitting in the chair, because there's a hole in the cushion!"

BARGAINS IN STOCK

Don't interest the man who is pouring a bunch of sore corns. Give him a bottle of Putnam's Corn Extract.

It is painless, takes effect in one day, cures corns in one day. Beware of substitutes for "Putnam's," it is the only one at all dealers.

Canadian Lumber In Britain

Prejudice Against Frame Houses Is Giving Way In Old Land

London—Pressure in favor of wood houses in Britain has become so great that it is unlikely any local objections will have any weight against the intention of the ministry of health to remove existing restrictions. A number of municipalities in Scotland have already taken steps to repeal restricting regulations. It is probable Scotland may lead Britain in wood construction.

It is understood Canadian parties are interested, and an estimate of the plans has been submitted to the ministry of health housing committee, stating that the buildings proposed for the ministry's army barracks would be a discredit to Canadian industry, being ugly in appearance, inconvenient in design and will generally defeat popularity.

The raising of restrictions, however, will give Canadian house builders a vast market if they co-operate. They propose supplying Britain and Europe with materials for mill-cut houses. Complete enquiries as to Canadian housing have been received from France, Belgium, and Mediterranean countries, even as far as the Palestine.

The Montreal Star understands that the European order for 20,000 mill-cut houses has already been booked. Enquiries show that prospective orders in the near future will be well up to \$100,000.

British Salvaging Ships

Occasionally Divers and Surface Helpers Bring Up a German Submarine

The British are energetically at work undoing to a certain extent the work of the U-boat. Already it is reported that ships' up the value of \$500,000 have been raised by the Admiralty's salvage department. In the case of colliers and some other vessels, the cargoes also are regained.

No unusual methods are employed by the salvaging department. Steamers with the most modern pumps and powerful lifting lighters are used now as horelators. Until new methods are devised, and if he comes to the deep water which will stay there, but the majority of the sinkings were in comparatively shallow water. It is even been said that the Lusitania might be raised or, at least, the bottom in her cargo recovered. In this it is interesting to note that \$95,000 worth of bullion recently was taken from the wreck of the Lusitania.

Occasionally the divers and their surface helpers bring up a German submarine, and perhaps a number of secrets of these craft have been revealed to the Admiralty. While the submarine fleet was surrendered after the armistice, it is well known that German had removed many devices which were peculiar and valuable accessories to these craft.

Minard's Liniment Relieves Neuralgia.

Bela Kun to Face Trial

For Incitement to Murder, Robbery and Forgery

Bela Kun and his associates are to be prosecuted for incitement to murder, robbery and forgery.

This man's name would be Adolbert Cohen, in English. Kun was heard of in Hungarian politics until last year. He is 37 years old and married. Before the war he was secretary of the local workmen's union, in Lagyvar, near Arad. He was arrested for stealing the union funds, 30,000 kronen, and prosecuted. On his promise to pay back the money in instalments he was released. When the war started he was mobilized with the rest of the Hungarians. He either deserted or was taken prisoner by the Russians, for about one year ago he was in Petrograd, claiming as one of the brightest pupils of Lenin. Supplied by funds from the Bolshevik treasury, he returned to Hungary and organized a regime of terror, organized the radical mob, and entered the field against the Czechs, Poles and Rumanians.

Minard's Liniment Relieves Neuralgia.

With Lithuania, a Republic Under Can Be Expanded

Amber is Lithuanian. The Lithuanian shore of the Baltic Sea is the only district in the world where the collecting and digging of amber is a practical industry. Practically all the products of amber—the necklaces, cigarette and cigar holders, buckles, pipes, pipe stems and hatpins, which are seen every day in the shops of the world—are really Lithuanian soil.

During modern years this industry has been closely guarded as a Prussian government monopoly. In the future, with Lithuania a republic, this industry can be greatly expanded with considerable profit, despite the fact that amber is one of the few things in the world which has diminished in value during recent years.

Baltic amber is not only collected under the shore, but it is mined from the so-called "blue earth" layers of the tertiary period well into the interior of Lithuania.

Excavations in Greece, Italy and Egypt have shown that Baltic amber was famous hundreds of years before the Christian era. Herodotus writes of it, and beads, which the ancient Lithuanians must have bartered, were discovered in the Grecian ruins of Mikene, dating back to 1500 B.C.

You may have noticed that the man who can turn his hand to anything seldom has the price of a wooden overcoat, when he turns up his toes.

Especially is a good teacher, but some men are contented enough, so that they can give experience a few pointers.

HOW TO "BE FIT" AT SIXTY

BY DR. LEO HENNING SMITH

As our boys "came marching home," they brought a certain red-blooded doctrine, and showed us the glory of a perfect body. They will show us how to "keep fit," even if we have passed middle life and are beyond the athletic stage.

For the tired business man, the man who feels the daily grind and the mighty flag, has meager appetite, headaches, nerves unstrung, is gloomy, ending in a sorry brain, try the right way. Get out of bed, open the window, breathe deeply, exercise the army "setting-up" exercise or use dumb bells, until in a warm glow.

Before breakfast take hot water, and occasionally castor oil or a pleasant laxative made up of May-apple, aloes, jalap, and sold by all druggists as Dr. Pierce's Pleasant Pellets.

As Prof. Strauss says, "The excretion of uric acid is more able to effect by exciting diuresis." Drink copiously of soft rain or distilled water, six or eight glasses per day, hot water before meals, and obtain Anuric Tablets, double strength, for 50 cts., at the nearest drug store and take them three times a day. If you want a trial package send for Dr. Pierce's "Anuric" Tablets, 10 cts., at Dr. Pierce's, Buffalo, N.Y.

"Anuric" (anti-uric-acid) is the recent discovery of Dr. Pierce and is much more potent than lithia, for it will dissolve uric acid as hot tea dissolves sugar.

The Model Husband

A lot of girls figure that soldiers will make good husbands because they have learned to cook and sew on buttons, but others claim there is a new thing that should be added at — they have also learned to obey.—Toronto Telegram.

PAINFUL NEURALGIA

Is Caused By Thin, Watery Blood and Cured By Dr. Williams' Pink Pills

Most people think of neuralgia as a pain in the head or in the face, but neuralgia may affect any nerve in the body. Different nerves are given to it when it affects certain nerves. Thus neuralgia of the sciatic nerve is called sciatica, but the character of the pain and the nature of the disease are the same. The cause of the pain, the cure to be effective, must be the same. The pain in neuralgia is caused by thin, watery blood. The blood which carries nourishment to the nerves has become thin and impure and no longer does so, and the pain nerves feel this cry for help in their natural food. You may ease the pains of neuralgia with hot applications, but you can only cure the trouble by enriching and purifying the blood. You can only do this by knowing of no medicine than can equal Dr. Williams' Pink Pills. These pills actually make new, rich blood, and thus act as the most efficient of nerve tonics. If you are suffering from the most dreaded of troubles, or any form of nerve trouble, give these pills a fair trial, and see how speedily you will be restored to good health.

You can get Dr. Williams' Pink Pills from any medicine dealer, or by mail at a special price of \$2.00, or six boxes for \$2.50, from Dr. Williams' Medicine Co., Brockville, Ont.

Whether the corn be old or new growth, it must yield to Holloway's Corn Cure, the simplest and best cure offered to the public.

Canada's forests embrace 350,000 square miles of pulpwood timber, estimated to yield 1,033,370,000 cords of pulpwood.

don, in memory of Lord Kitchener. It will cost \$50,000.

A special chapel will shortly be installed in St. Paul's Cathedral, London.

Amber Monopoly Gone

With Lithuania, a Republic Under Can Be Expanded

Amber is Lithuanian. The Lithuanian shore of the Baltic Sea is the only district in the world where the collecting and digging of amber is a practical industry. Practically all the products of amber—the necklaces, cigarette and cigar holders, buckles, pipes, pipe stems and hatpins, which are seen every day in the shops of the world—are really Lithuanian soil.

During modern years this industry has been closely guarded as a Prussian government monopoly. In the future, with Lithuania a republic, this industry can be greatly expanded with considerable profit, despite the fact that amber is one of the few things in the world which has diminished in value during recent years.

Baltic amber is not only collected under the shore, but it is mined from the so-called "blue earth" layers of the tertiary period well into the interior of Lithuania.

Excavations in Greece, Italy and Egypt have shown that Baltic amber was famous hundreds of years before the Christian era. Herodotus writes of it, and beads, which the ancient Lithuanians must have bartered, were discovered in the Grecian ruins of Mikene, dating back to 1500 B.C.

Build More Comfort into the Farm Home

Your farming success entitles you to more home comforts and conveniences. That's what a man works for, after all, so why not have these good things now?

Why let the home get run down just at the time when you should enjoy it most? First, renew the old, cracked, tumbledown walls and ceilings by covering them all with Beaver Board. It will make new rooms of the old ones.

This done, you'll feel like reaching other things because building new rooms with these large, board-like panels is so easy. You can do the whole thing yourself.
